Subjects Index to Volume 28

(January to December 2007)

- A**
- A comparison of 4 different proprietary gastric bands, 110*
 - A high abdominal aortic aneurysm shrinkage rate after aortic stent graft in Thai patients: an early observation from Songklanagarind hospital, 151*
 - A new modified technique to restore permanent hemodialysis catheter patency by manual fibrin sheath removal, 150*
 - A study of peripheral blood-derived autologous angiogenic cell precursors therapy in patient with critical limb ischemia, 152*
 - Accuracy of per-rectal examination for diagnosis and predicting type of appendix in patients with acute appendicitis, 112*
 - Accuracy of the diagnosis in patient with acute right iliac fossa pain undergoing appendectomy, Ramathibodi experience, 127
 - Accuracy and reliability of the multi-serial lymph node slider at one millimeter tissue thickness, 104*
 - Adequacy of lymph node harvested by curative intent resection for colorectal cancer: Ramathibodi experience, 51
 - Advanced breast cancer with tetanus, 105*
 - Advantages of Urgotul S.S.D. over silver sulfadiazine cream in the outpatient management of partial thickness burns, 98
 - Anatomy of anal sphincter: new look from inside-out, 120*
 - Autologous angiogenic cell precursors intramyocardial injection for ischemic and dilated cardiomyopathy, 157*
- B**
- Bilateral stress fractures of the neck of femur: a series of four cases, 158*
 - Blood order guideline for elective surgery: impact of a guideline, 167*
- C**
- Cancer in fistula-in-ano, 119*
 - Catheter-directed thrombolysis of acute limb ischemia caused by native artery occlusion, 148*
 - Cholecystoenteric fistula: frequent encounters of an uncommon kind. Two years experience in a regional centre in Australia, 117*
 - Chondrosarcoma of ilium, 158*
 - Coloport: an instrument for intra-operative colonic lavage and intra-operative colonoscopy, 15
 - Combination maneuvers to PPH (CPPH) for management of giant thrombosed hemorrhoids and huge prolapsed hemorrhoids, 119*
- D**
- Comparative study of tailor-made mesh plug herniorrhaphy versus lichtenstein herniorrhaphy versus bassini operation: a prospective clinical trial, 124*
 - Comparative study of treatment outcome in achalasia: surgical myotomy vs pneumatic balloon dilatation, 109*
 - Comparing arm morbidity following sentinel node biopsy and axillary node dissection in early breast cancer, 103*
 - Comparison of hepatectomy outcome using intermittent pedicle occlusion with ischemic intervals of 15 versus 30 minutes after ischemic preconditioning, 115*
 - Comparison of the ionic silver-containing hydrofiber and paraffin gauze dressing on split-thickness skin graft donor sites, 162*
 - Compartmentalized sclerotherapy for treatment of vascular malformation in maxillofacial region, 162*
 - Complications during laparoscopic radical cystoprostatectomy learning curve, 166*
 - Complications of major liver resection for hilar cholangiocarcinoma, 116*
 - Concomitant radiofrequency ablation of atrial fibrillation during mitral surgery, 155*
 - Cystic partially differentiated nephroblastoma (CPDN): a rare variant of wilms' tumor, 11
- E**
- Deep postanal space: new concept, 122*
 - Deep venous thrombosis in surgical intensive care unit: prevalence, incidence and risk factors, 150*
 - Delayed pericardial effusion following valve surgery: aspect of intraoperative pleuropericardial window for prevention, 155*
 - Distraction lengthening of the forearm for congenital and traumatic problems, 158*
 - Does neurological deficit in thoracolumbar and lumbar burst fractures depend on the extent of canal compromise?, 159*
- F**
- Early experience of mitral valve repair for mitral regurgitation, 153*
 - Early experience in robotic assisted laparoscopic radical prostatectomy without proctorship: the first series in Asia, 164*
 - Early results of coronary artery bypass grafting in patients with left ventricular dysfunction: Queen Sirikit heart center, Khon Kean University experience, 154*
 - Editorial: Udom poshkrishna memorial lecture "coping with the challenge of the future", 77

*Abstract

- Efficacy of medical management of BPH with lower urinary tract symptoms: urodynamic studies at Chiangmai university hospital, 65
- Elevated homocysteine levels are associated with increased postoperative myocardial injury in patients undergoing coronary artery bypass grafting, 156*
- Endoscopic decompression of postoperative small bowel obstruction, 111*
- Endoscopic ultrasound (EUS) can predict outcome of dilatation in corrosive stricture of the esophagus, 109
- Esoophagectomy via thoracoscopy and laparoscopy-outcomes in 30 patients, 108*
- Extremity vascular injuries: Songklanagarind hospital experience, 151*
- G**
- Gist of small bowel: uncommon cause of massive gastrointestinal bleeding (GIB), 112*
- H**
- Hepatectomy with hilar resection for hilar cholangiocarcinoma, 113*
- I**
- Increased urinary excretions of oxidative stress biomarkers and sialic acid associated with severity of bladder tumors, 133
- Inhibition of collagen type I synthesis in keloid fibroblasts with short-interfering RNA, 163*
- L**
- Laparoscopic abdominoperineal resection for lower rectal cancers - results of 61 cases, 122*
- Laparoscopic anterior resection: early experience at Bhumibol Adulyadej Hospital, 35
- Laparoscopic excision of urachal cysts in aging men and after pregnancy, 165*
- Laparoscopic excision of urachal remnants in aging men, 166*
- Laparoscopic extravesical ureteral reimplantation for an iatrogenic distal ureteral stricture, 166*
- Laparoscopic extravesical ureteral reimplantation for distal ureteral stricture, 165*
- Laparoscopic gastrojejunostomy for gastric outlet obstructions, 110*
- Laparoscopic radiofrequency thermal ablation of a renal tumor with simultaneous laparoscopic cholecystectomy: preliminary experience, 165*
- Laparoscopic repair of large type 3 diaphragmatic hernia with prosthetic mesh, 124*
- Laparoscopic total mesorectal excision in rectal cancers-results of 101 cases, 121*
- Laparoscopic totally extraperitoneal inguinal hernia repair, 123*
- Laser doppler analysis of blood perfusion in burn wounds, 107*
- Leading points in infancy and childhood intussusception, 161*
- Left laparoscopic hepatectomy: a case report, 117*
- Liver resection for hilar cholangiocarcinoma, 116*
- Long term results of coronary bypass surgery (on-pump technique) for triple vessels disease, 154*
- Long-term functional outcomes after restorative proctocolectomy with J-pouch ileonal anastomosis: 10-year experience in Thai patients, 1
- Long-term outcome of non-operative management of appendiceal mass, 57
- M**
- Major hepatic resection for hilar cholangiocarcinoma without preoperative liver drainage, 117*
- Malignant lymphoma of the rectum, 119*
- Meld score in liver transplantation candidates, 123*
- Mesenteric cystic lymphangioma in an adult patient: a case report, 151*
- Minimal invasive parathyroid surgery: initial experience at Prince of Songkla University, 106*
- Minimally invasive esophagectomy: initial experience at Chulalongkorn University, 107*
- N**
- Normal abdominal aortic diameter in Thai population is small, 149*
- Novel mutations of STK11 gene in two Thai pediatric patients with Peutz-Jeghers syndrome, 160*
- O**
- One-year follow-up of mastectomy with immediate LD flap reconstruction by the extended LD flap technique, 103*
- Outcomes following hepatectomy with hilar resection for cholangiocarcinoma with hilar involvement, 113*
- P**
- Pancreatic ascites in young patient successfully treated with pancreatic duct stenting: report of a case, 48
- Pancreaticoduodenectomy for diseases of the head of pancreas and periampullary area at Chonburi Hospital in 6 years: a 101-case report, 115*
- Papillary thyroid carcinoma arising in a young patient with chronic lymphocytic thyroiditis with a predisposing RT-PTC1 fusion, 106*
- Percutaneous atherectomy of superficial femoral artery with a plaque excision device: case report, 147*
- Percutaneous enterostomy: a comprehensive audiovisual of upper gastrointestinal tract access, 112*
- Pericardiectomy: Songklanagarind experience, 152*
- Posttraumatic abdominoscrotal hydrocele, 161*
- Preliminary results of injury surveillance at Viet Duc Hospital, 83
- Prevalence of anemia in Thai patients with cardiac surgery, 153*
- Prognostic factors for sinus rhythm occurrence in atrial fibrillation patient undergoing combined radiofrequency maze procedure and mitral valve surgery, 156*
- Prospective study of factors affecting results of PPH surgery at Chaopha Hospital, 120*
- R**
- Ramathibodi vascular anastomosis model II: relation between a laboratory-based model and surgical competency, 147*
- Recurrent giant cell tumour of the thoracic spine: a case report, 159*
- Results of lacrimal duct injury treatment at Phrae Hospital: a comparison between microscopic and pigtail probe methods, 61

Risk factors for gallstone disease in Thai population, 114*
 Ruptured abdominal aortic aneurysm: predictors of the mortality after emergency open repair at Songklanagarind hospital, 149*

S

Seeding of carcinoma along the subcutaneous tunnel of tube thoracostomy: report of a rare circumstance, 155*
 Sentinel lymph node biopsy performed under local anesthesia is applicable and accurate, 104*
 Septic complications in infants with gastroschisis: an eleven-year review from a referral hospital in southern Thailand, 161*
 Short-term outcomes of the lift (ligation of the inter-sphincteric tract) procedure for treatment of fistula-in-ano, 118*
 Single-stage ERCP with laparoscopic cholecystectomy in patients with gallstones and suspected common bile duct stones, 114*
 Stapled hemorrhoidectomy: 6-year experience in Thai patients, 39
 State of science: falls prevention program in community-dwelling elders, 90
 Sternal sparing cardiac surgery, 157*
 Successful aortic root replacement with aortic arch aneurysm repair: a case report, 69
 Suction ligator: an instrument for rubber band ligation, 143
 Suction ligator: an instrument for rubber band ligation, 118*

T

Tem early experience, 120*
 The dependence of the impulse mode of the increment of some hormones and mitotic activity from testosterone production in older men, 20

The effect of narcotic administration on abdominal signs in acute appendicitis patients, 111*
 The incidence and prognostic factors of colorectal gastrointestinal stromal tumors at King Chulalongkorn Memorial hospital, 121*
 The most extensive operation for advanced biliary tract cancer, 113*
 The potential of human mesenchymal stem cells to differentiate into hepatocytes, 116*
 The recent trend and incidence of breast cancer in an adjusted incidence population based study of Songkla province, 105*
 The role of post-operative serum total bilirubin in predicting early outcome in biliary atresia, 160*
 The role of temporary vlc filters in trauma patients, 124*
 The testosterone production and the regulation of the expression of genes of several proliferation factors in older men, 27
 Thoracic endovascular aortic aneurysm repair: Siriraj experience, 154*
 Thoracoscopic and laparoscopic esophagectomy, 108*
 Toxicity of mitomycin C and 5-FU regimen: experience at Srirangin Hospital, Khon Kaen University, Thailand, 73
 Trauma during pregnancy, review of 38 cases, 138

U

Use of BIB intra-gastric balloon in Asian patients, 110*

V

Visular uro-dilator, 163*

W

Whipple's procedure for severe pancreaticoduodenal injury: a case report, 114*
